

KONICA MINOLTA

ImagePilot M – multi-user, feature rich all-in-one

The All-In-One digital radiography solution configured for most private practice healthcare providers who want the simplest transition to digital and room for growth.

Standard ImagePilot Features:

- All-In-One Design—Easiest for the staff to learn. Reduces IT support requirements.
- AutoPilot—Automatic image processing for unsurpassed consistency in image quality.
- Simplified Image Acquisition—Single click workflow increases productivity.
- Same User Interface At Every Workstation—learn only one system.
- Easy-To-Use And Feature Rich Viewing Screen—Image adjustments, annotations, measurements, inputs and outputs, customizable for basic to advanced users.

ImagePilot M highlights:

- Excellent Speed—60 cassettes per hour upgradable to 76.
- Redundant Storage—mirrored 500GB hard drives (RAID 1).
- Diagnostic Quality Display—Review images with confidence on a calibrated diagnostic monitor.
- Distribute Workflow with Multiple Users—Three additional licenses (4 total inc. the server).
- Import Priors or Export Patient Images to CD—Better than film for transportability and viewing.
- Power Protection—UPS for the server to provide power during outages or protect against anomalies.

ImagePilot

The essentials of imaging

ImagePilot Features and Specifications
